ICRISAT

IN THE HOME OF NATURE.

Ever seen the home of nature? Ever been to where life will be surrounded by dense greens? Come on over to Floresta, homes in the thick of nature from Hallmark Builders. A villa-life that's as close to nature as anyone can belong. The most beautiful facet of this community is the fact that it's beautifully entwined with flora, and endless flora.

Come belong to a home that has its neighbour, nearly 3,600 acres of forest that's in the lap of the internationally-renowned research organization, International Crops Research Institute for the Semi-Arid Tropics (ICRISAT). It is the rich diversity of flora and fauna across large green spaces that this institute is home to, which has inspired us to name this community, 'Floresta.' Make your home in the universe of green.

IN HERE, PARK YOUR EXCLUSIVITY.

A villa is, in itself, a sign of exclusivity. And here, with a forest as your blanket of warmth and cool, you're in for an era of exclusivity. With villas that are well-spaced, with a parking slot dedicated for your four-wheeled vehicles - it's all yours to be.

IN THE MIDDLE OF VIBRANCE.

Every morning when you step out for a stroll on the green-lined avenue or the pathway in front of your villa, you'll be encircled and greeted by colors and creativity, all made by nature. It's a setting of vibrance you've been waiting for all your life.

INSPIRE FOR YOURSELF A LIFE OF GRACE.

If you've always sought freedom of space and freedom to style your life, rest assured that your villa at Hallmark Floresta will be your destination for a lifetime. Plan your priorities like you want it - with your own genre of furniture.
